

Press Release

Videos are back on Karaoke Version!

July 1, 2008

There's no time to rest this summer! The whole Karaoke Version team is happy to inform you that video files are now available to download!

We listened to your feedback from our last survey, and you will now find three different options under the “Karaoke” tab:

- An animated background with great colorful designs that change with the beat and bring a new dimension to your karaoke songs
- A black background, simple and efficient
- A specific MP3+G file for advanced users

Whichever version you prefer, thousands of songs are already available and many more are on their way every day.

Simplified search

And there's more! To improve your browsing experience, we have added an auto-completion feature to our search-engine. Go and try it; you'll be impressed!

Thanks to these exclusive new features, you're now ready to sing the whole summer.
