

Press Release

Your music, forever yours!

October 1, 2008

Did your computer just crash? Did you think your files had been lost forever within the Internet abyss?

Don't worry! With Karaoke Version you can download your songs at any time, without any limitation. Your account has become your own personal safe in which [your files are stored forever!](#)

We also have more news this month: you can choose to [receive your files directly by e-mail](#), rather than downloading them.
